

TODO

Twinning
Open
Data
Operational

This project has received funding from the European Union's Horizon 2020 research and innovation programme under Grant Agreement Number 857592 - TODO

About the project

Project "TODO – Twinning Open Data Operational", approved by Horizon2020 programme – Twinning, started with its activities in October 2019.

This project has aims to leverage the interdisciplinary scientific excellence and innovation capacity of the University of Zagreb (UNIZG) in the field of open data to boost the supply and use of open government data in Croatia and beyond.

Faculty of Geodesy, University of Zagreb is coordinating this EU project, led by assoc. prof. Dražen Tutić, PhD.

Total project budget is 799.988,00 €.

Project will be completed by October 2022.

Project partners

Project Coordinator
**Faculty of Geodesy,
University of Zagreb**

Project coordinator
Dražen Tutić

Partner
**Faculty of Electrical Engineering and
Computing, University of Zagreb**

Team leader
Igor Čavrak

Partner
**Faculty of Organization and
Informatics, University of Zagreb**

Team Leader
Nikolina Žajdela Hrustek

Partner
Faculty of Law, University of Zagreb

Team leader
Anamarija Musa

Partner
**Faculty of Transport and Traffic
Sciences, University of Zagreb**

Team leader
Miroslav Vujić

Partner
**Faculty of Agriculture, University of
Zagreb**

Team leader
Dragica Šalamon

Partner
Delft University of Technology

Team leader
Bastiaan van Loenen

Partner
University of the Aegean

Team leader
Yannis Charalabidis

Project objectives

The main objective of the project is to strengthen the scientific excellence and innovation capacity of the UNIZG in the field of open data by cooperation with internationally-leading counterparts from the Netherlands (Delft University of Technology) and Greece (University of the Aegean).

Objective 1:

To establish an open data research environment that will facilitate and stimulate interdisciplinary multi-domain open data research within and beyond UNIZG, TUDELFT and UAEGEAN.

Objective 2:

To enhance the overall scientific R&I capacity of UNIZG significantly in the field of open data.

Objective 3:

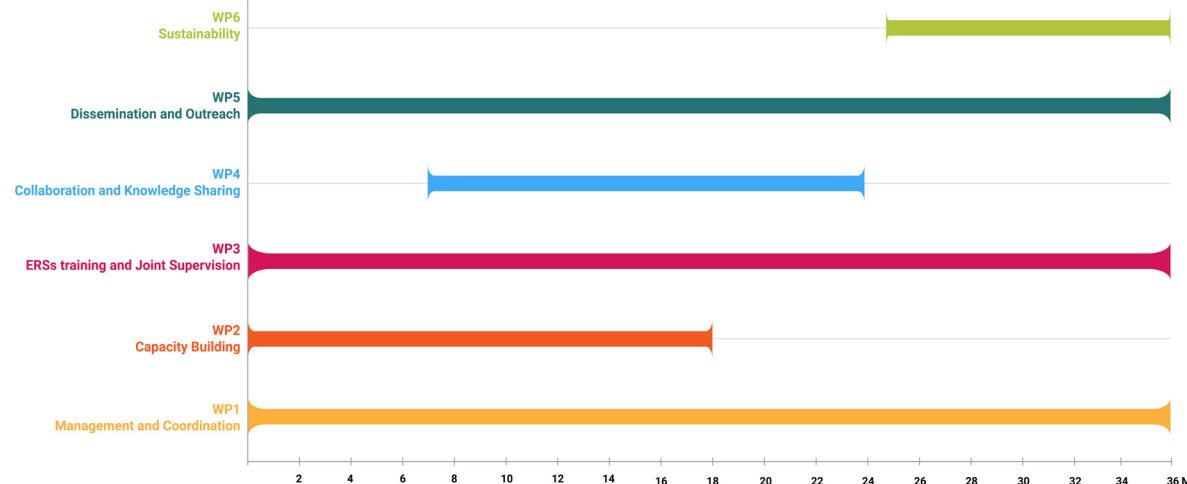

To increase the research excellence of UNIZG, TUDELFT and UAEGEAN by collaboratively developing and applying an interdisciplinary and multi-domain open data research approach.

Objective 4:

To extend UNIZG strategic partnerships and strengthen its visibility and reputation among the national and international research community, industry, policy-makers and the general public.

Objective 5:

To secure a sustainable environment for future collaborations between UNIZG, TUDELFT and UAEGEAN.

Work package 1

Management and Coordination

The main aim of this Work Package is to optimize the organization and timing of activities and resources and ensure an effective, smooth and high-quality execution of the project.

WP1 leader: Dražen Tutić

Faculty of Geodesy,
University of Zagreb

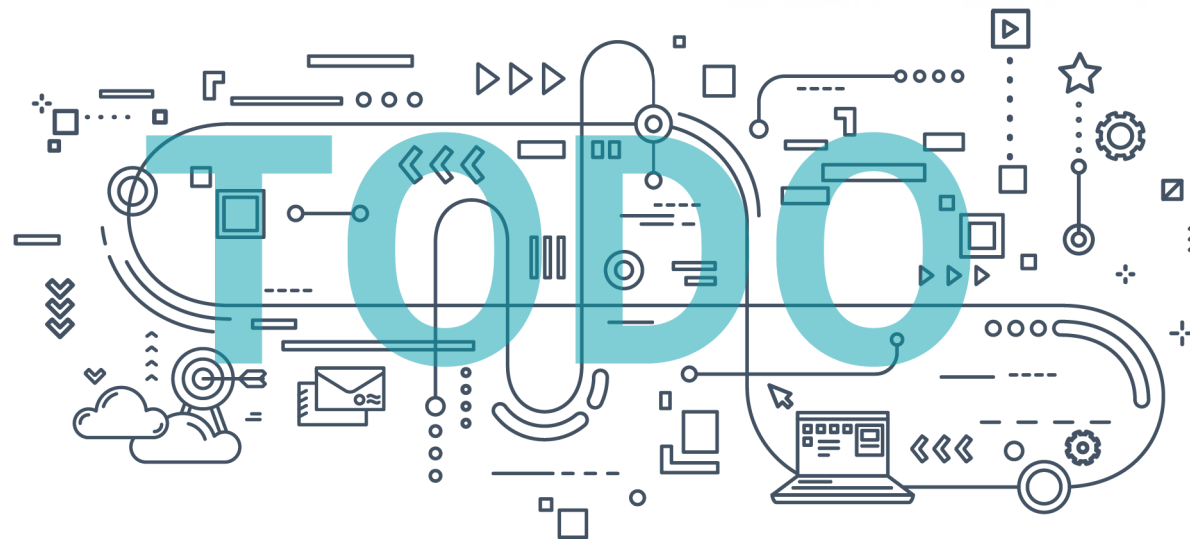

Work package 2

Capacity building

The main objective of this Work Package is to significantly enhance the overall scientific R&I capacity of the UNIZG in the field of open data.

WP2 leader: Frederika Welle Donker

Delft University of Technology

Work package 3

ESRs training and Joint Supervision

The main aim of this Work Package is to engage early stage researchers (ESRs) from all partners into the open data research and training in order to increase its capacity. TODO will execute joint training activities (exchange activities, summer schools, seminars, workshops and conferences targeting the development and broadening of the open data research competences of the ESRs. Training is primarily focused on scientific and technological knowledge through research on individual, personalised projects, complemented by substantial joint supervision as well as interdisciplinary skills through learning by doing approach addressing other relevant skills and competences.

WP3 leader: Igor Čavrak

Faculty of Electrical Engineering and Computing,
University of Zagreb

Work package 4

Collaboration and Knowledge Sharing

The main aim of this Work Package is to foster scientific progress and collaboration between TODO partners in and across different disciplines of open data research.

WP4 leader: Anamarija Musa

Faculty of Law,
University of Zagreb

Work package 5

WP5: Dissemination and Outreach

The main aim of this WP is to extend UNIZG strategic partnerships and to strengthen its visibility and reputation among the national and international research community, industry, policy-makers and the general public.

WP5 leader: **Nikolina Žajdela Hrustek**

Faculty of Organization and Informatics,
University of Zagreb

Work package 6

WP6: Sustainability

The main aim of this WP is to prepare and ensure the long-term sustainability of open data research at UNIZG and the collaboration with TUDELFT and UAEGEAN. More specific objectives include:

WP6 leader: **Yannis Charalabidis**

University of the Aegean
