D1.4 - Evolution of the publications in high impact journals in the relevant research fields

Level of dissemination: PUBLIC

This project has received funding from the European Union's Horizon 2020 research and innovation programme under Grant Agreement Number 857592 - TODO

Statement on peer-reviewed publications in the open data domain of the UNIZG partners (GEOD, FER, FOI, LAW, TRANS, AGRI) for the period of three years preceding the start date of the project

Required for Horizon 2020 Widening Key Performance Indicator "Evolution of the publications in high impact journals in the relevant research fields".

High impact journals in this report are journals indexed in **Web of Science Core Collection**, **Scopus** and **Medline**. These three databases are defined in the bylaws of the *National Council for Science, Higher Education and Technological Development of the Republic of Croatia* for measuring scientific impact ([Pravilnik o uvjetima za izbor u znanstvena zvanja, 2017](#)).

Period for which the publications are included is from **October 2016 to September 2019**.

For the purpose of evaluation according to objectives of project, publications are categorised into single discipline vs. interdisciplinary and to open data development vs. applications of open data.

UNIZG Faculty	Single discipline		Interdisciplinary	
	Open data development	Applications of open data	Open data development	Applications of open data
GEOD	2	9	2	5
FER	2	2	1	8
FOI	0	5	3	2
LAW	1	1	1	1
TRANS	1	2	1	1
AGRI	1	10	0	6

Complete list of selected publications will be available on the official web-page of the [TODO project](#).

For wider impact, number of publications for all other UNIZG faculties will be analysed and published on the official web-page of the [TODO project](#).
